

Dell Pro Precision 5 Series 16S Laptop

Purpose-built for Power Users.

Featuring the latest AMD processor with fast, integrated Radeon 890M graphics and up to 60 TOPS NPU.

Extraordinary performance

The Dell Pro Precision 5 Series 16S Laptop (AMD) is engineered to meet the demands of power users with its advanced specifications, when compared to a typical business PC. It features the latest AMD Ryzen™ (up to R9) processors, delivering outstanding multi-threaded performance. The integrated AMD Radeon™ Pro graphics ensure stunning visuals and smooth rendering, making it ideal for light design and creative work. The laptop is also equipped with a dedicated Neural Processing Unit (NPU) designed to accelerate AI-driven workloads, enhancing productivity in AI-oriented applications. This combination of cutting-edge processing power, intelligent AI capabilities, and robust graphics, along with fast memory and Gen 5 storage makes the Precision 5 16S essential for business professionals.

Elevated experience

Designed for both style and functionality, its sleek 3-sided aluminum design not only gives it a modern, professional look but also makes it impressively thin and lightweight —perfect for on-the-go professionals. The stunning 16-inch (up to QHD+) display provides vibrant, true-to-life visuals with ultra-thin bezels for an immersive viewing experience. The laptop has an optional advanced 8MP IR camera, delivering crystal-clear video quality for virtual meetings while also supporting secure facial recognition login. With its combination of portability, cutting-edge design, and thoughtful features, the Precision 5 16S redefines productivity and convenience for power users.

Exceptionally mobile

Built for mobile power users, stay connected and productive wherever work takes you. With support for 4G/5G connectivity, WiFi 7 R2, and Bluetooth, it offers lightning-fast and reliable connections, whether you're collaborating in the office or working remotely. Its lightweight design, starting at just 4.17 lbs, makes it easy to carry, while the long-lasting (up to 70Wh) battery ensures you can power through your day without constantly searching for an outlet.

Expanded sustainability

Many of our products are crafted using bio-based materials and recycled content, ensuring sustainability is considered at every step. We employ 100% recycled materials for our shipping, which are also fully recyclable. Additionally, our offerings are EPEAT 2.0 Gold registered with a Climate+ designation, and they meet Energy Star 9.0¹ and TCO10 certification standards.

Excellent reliability

Tested and certified by leading ISVs to guarantee outstanding application performance, MIL-STD tested for durability against everyday wear and tear, and backed by a reliable warranty with optional support services.
